RIESLING RÉSERVE VOM KALKSTEIN TC 2018

ORIGIN AND VINIFICATION

This expressive Riesling grows on the barren, chalky steep slopes of the Wonnegau around Hohen-Sülzen and the Zellertal, which give it its name. Selectively harvested by hand and spontaneously fermented, the wine is We leave it on the fine lees until the harvest of the following year, before it is bottled.

VINTAGE

2018 was a year of superlatives: the stable, dry high-pressure weather with lots of sunshine over the summer months also shaped the picture in our vineyards. The dry phases demanded everything from the vines. Once again, it proved to be a costly but very effective measure that we spread thousands of straw bales in the vineyards in spring to provide good shade for the soil and to counteract evaporation.

AGEING CELLAR

Our ageing cellar, built into the mountain and with characteristics similar to those of a natural cellar, is used exclusively to allow bottled wines to mature and develop over an extended period under ideal conditions.

Every wine that leaves the winery after years of ageing is given the 'Treasure Collection' label to document the perfect treatment of the bottles.

This is how the vision of H.O. and Carolin Spanier unfolds, to decelerate the enjoyment of wine and, after focusing on the vineyard's provenance, to make time and maturity tangible again.

TASTE

Fine peach scent, yellow fruity on the palate, delicate herbal nuances, animating acidity and fine minerality The unique minerality and the precise style make the wine complex, exciting and enormously stimulating to drink. The mouthfeel is refreshing, accompanied by a long finish.
