GRÜNER SYLVANER RÉSERVE 2024

WINE

In addition to its native Franconia, Grüner Sylvaner has a long tradition in the Wonnegau and can certainly be considered the original grape of Rheinhessen.

Grown on the chalky soils around Hohen-Sülzen, it always develops a herbaceous, spicy flavour.

VINIFICATION

The GRÜNE SYLVANER Réserve was matured in tonneaux barrels and fermented spontaneously until bone dry.

Due to the long ageing on the fine lees, it develops a wonderfully mouth-filling creamy character - without lacking finesse and precision.

TASTE

It flows into the glass in a light straw yellow colour with green reflections and is yellow-fruity and juicy: notes of nectarines and small yellow pears outline the nose, balanced by spring-fresh kitchen herbs. It flows crystalline across the palate, focussed and precise, with everything in the right place: the fruit is flanked by tart phenolics and the mild acidity is perfectly integrated.
