SPÄTBURGUNDER 2021

The southern Wonnegau has been known since medieval times for achieving ripeness in grape varieties that fail to thrive in cooler places. Spätburgunder has forever been part of that equation, and can thus be counted as a virtual native of this place. While days in the Wonnegau can be very hot, the cool nights mean overall higher diurnal temperature swings than in other districts. Harvested ripe — but never overripe — we raise our estate-level Spätburgunder Gutswein in barrique and French tonneaux. This provides a first encounter between wine and oxygen, accentuating the delicate fruit of the Spätburgunder with an earthy spice and other aromatic facets.

The wine shines a deep ruby red in the glass with aromas of red berry fruit and ripe cherries. Underscored with delicate herbal nuances, it is juicy and refreshing with charming fruit, subtle spice and refined tannins that give it a thrilling texture. From a wurst sandwich to pasta — an uncomplicated, joyous Spätburgunder complements any day or dish.
