The Schwarze Herrgott is one of the oldest and most famous vineyards in Germany (mentioned as a vineyard as early as the 8th century), but has been forgotten for decades. In the middle of the Schwarze Herrgott runs the border between Rhine Hesse and the northern Palatinate. The Riesling selection from this vineyard presents itself in a delicate and multi-layered way-supported by a fine, juicy fruit sweetness, which is wonderfully captured by the barren soil and the stony aromas and does not make them appear superficial. The invigorating acidity gives this wine an enormous complexity, brilliance and play.

Awards

Fastaff 2019: "Fine botrytis, candied pineapple, citrus residues ... intense, lime-mineral in the finish, a culinary selection." - TIP 92 Punkte
