The successor to the GIRO ROSÉ.

The wild hare was a frequent visitor to the hills and dales of Carolin and Oliver's childhood.

The rabbit painted in oil on the label commemorates that constant companion from our youth. While the intensive cultivation of fertile land in recent decades has often robbed the hare of his habitat, our organic farming has lured him back to our vineyards. And we're glad to see it. After all, he is a symbol of fertility and happiness.

To the wine: elegant fruits mingle with subtle accents of fresh herbs in the nose as only red grapes can give, in a dress of refreshment, fruit and enticing red-grape aromas. Wonderfully juicy, with an unparalleled mouthwatering appeal.

One thing is clear: it's worth going down this rabbit hole!
